

## Stream, download, and game with the world's fastest VPN

Hotspot Shield is the world's fastest VPN, as verified by Top10VPN, providing secure and private access to information for users around the world. Its proprietary Hydra protocol optimizes your VPN to ensure fast, secure connections for gaming, streaming, downloading, P2P, and more. Trusted by millions, Hotspot Shield users can encrypt their internet traffic by connecting to one of its 1800+ VPN servers in 125+ virtual locations around the world. Hotspot Shield does not log any data that could be tied to customers, keeping sensitive data protected from hackers and cyber predators.
